HYB - Hybrid courses combine face-to-face classroom instruction with computer-based learning. A significant part of the course content (51% or more) is online and, as a result, the time spent in the classroom is reduced. Most hybrid courses meet a maximum of two days per week in the classroom and conduct the remainder of the learning online using the NICC web-based Brightspace system. Therefore, students get a blend of both worlds in a hybrid course.

**\*The TRN-100 Brightspace Tutorial is highly recommended to complete prior to you registering for any oneline or hybrid courses.**
