

RESPIRATORY CARE | PEOSTA

Admission Requirements

Placement Assessments.

All students must achieve minimum math, reading and writing levels prior to being accepted. Requirements may be satisfied by high school coursework completed in the past five years, college courses or completing one of the following placement assessments: ACT, ACCUPLACER, ALEKS or SAT. Students should submit their high school or official college transcripts or assessment results to the Admissions Office for consideration of an assessment waiver. The placement assessment must have occurred within three years of your application date. Respiratory Care applicants must meet one of the following minimum requirements for math and reading placement:

Reading	
ACCUPLACER®	70
ACCUPLACER NEXT GENERATION®	250
ACT®	19

Math	
ALEKS®	14
ACT®	16
SAT®	430

Coursework.

Completion of the following course is required with a minimum grade of C- or better and must have been successfully completed no more than five years prior to the student's application date. For transfer consideration of the following coursework, submit official college transcripts to the Admissions Office for evaluation.

- Human Anatomy and Physiology I with lab component [BIO:168] *Mandatory prerequisite, one year high school biology/chemistry or college equivalent with a minimum grade of C-; or a minimum grade of C- in BIO:112, BIO:157, or CHM:110. Submit your high school transcript to document completion of the prerequisite.*

Admission Status

Pending Requirements.

Students with a pending requirements status have submitted an application to the Respiratory Care program but have not completed one or more of the admission requirements outlined above. At the end of each semester, admission staff will review academic coursework and document successful completion of the admission requirements for the program. Students with a pending requirements status are not ranked on the waitlist until all requirements have been satisfied.

Waitlist.

Waitlist students have all the admission requirements completed and are waiting for acceptance into the Respiratory Care program. A waitlist is necessary due to limited capacity for program enrollment. Students are ranked on the waitlist based on the date they complete all admission requirements.

Accepted.

The Respiratory Care program begins in the fall. Students at the top of the waitlist are offered acceptance into the program and are required to respond by the stated deadline to avoid cancellation of their application. A student who refuses an acceptance offer will be placed at the bottom of the waitlist as of the date the Admission Office receives notice of their intent not to enroll.

Program Costs	RESPIRATORY CARE
Tuition/Fees	\$17,278 in-state* \$19,526 out-of-state*
