Policy Statement

Northeast Iowa Community College is committed to creating and maintaining a community where all individuals enjoy freedom from discrimination, including discrimination on the basis of sex, as mandated by Title IX of the Education Amendments of 1972 (Title IX). Sex discrimination, which can include discrimination based on pregnancy, marital status, or parental status, is prohibited and illegal in admissions, educational programs and activities, hiring, leave policies, employment policies, and health insurance coverage. Northeast Iowa Community College hereby establishes a Policy and associated procedures for ensuring the protection and equal treatment of pregnant individuals, persons with pregnancy-related conditions, and new parents.

Under the Department of Education’s (DOE) Title IX regulations, an institution that receives federal funding “shall not discriminate against any student, or exclude any student from its education program or activity, including any class or extracurricular activity, on the basis of such student’s pregnancy, childbirth, false pregnancy, termination of pregnancy or recovery therefrom.” According to DOE, appropriate treatment of a pregnant student includes granting the student leave “for so long a period of time as is deemed medically necessary by the student’s physician,” and then effectively reinstating the student to the same status as was held when the leave began.

This generally means that pregnant students should be treated by the College the same way as someone who has a temporary disability, and will be given an opportunity to make up missed work wherever possible. Extended deadlines, make-up assignments (papers, quizzes, tests, and presentations), tutoring, independent study, online course completion options, and incomplete grades that can be completed at a later date, should all be employed, in addition to any other ergonomic and assistive supports typically provided by Disability Services. The Title IX Coordinator has the authority to determine that such accommodations are necessary and appropriate, and to inform faculty members of the need to adjust academic parameters accordingly.

As with disability accommodations, information about pregnant students’ requests for accommodations will be shared with faculty and staff only to the extent necessary in order to provide the reasonable accommodation. Faculty and staff will regard all information associated with such requests as private and will not disclose this information unless necessary. Administrative responsibility for these accommodations lies with the Title IX Coordinator, who will maintain all appropriate documentation related to accommodations.

In situations such as clinical rotations, performances, labs, and group work, the institution will work with the student to continue in the program, if possible. In progressive curricular and/or cohort-model programs, medically necessary leaves are sufficient cause to permit the student to join a subsequent cohort when returning from leave.

Students are encouraged to work with their faculty members and Northeast Iowa Community College’s support systems to devise a plan for how to best to address the conditions as pregnancy progresses, anticipate the need for leaves, minimize the academic impact of their
absence and get back on track as efficiently and comfortably as possible. The Title IX Coordinator will assist with plan development and implementation as needed.

e. While receiving academic modifications, the student will remain registered and retain benefits accordingly.

a. As long as a student can maintain appropriate academic progress, faculty, staff, or other Northeast Iowa Community College employees will not require a student to take a leave of absence, or withdraw from or limit their studies as the result of pregnancy, childbirth, or related conditions, but nothing in this policy requires modification of the essential elements of any academic program.
